

Uploading Documents

How to ...

When putting documents on Blackboard please use the instructions below which show how to post an **Item**, as opposed to how to post a **File**. The File option has been known to cause making students unable to see the documents.

File Type...

It is best practice to always put documents and PowerPoint files on Blackboard as PDF files instead of .doc or .ppt files. PDFs are not easily changed, they are compatible with more computer systems/devices, and it is not necessary for the user to download them.

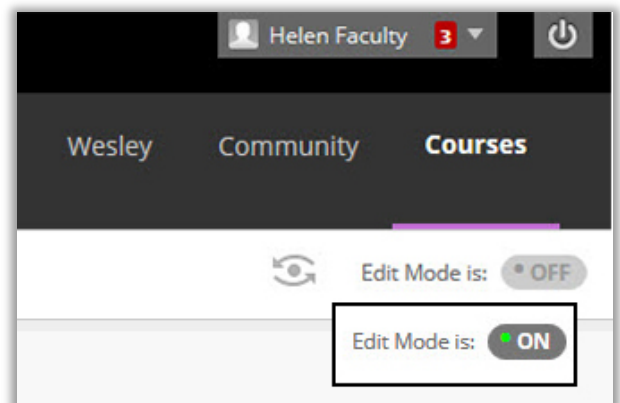

1. Navigate to blackboard then enter your username and password.
You can do this either through [MyWesley](#) or blackboard.wesleyseminary.edu

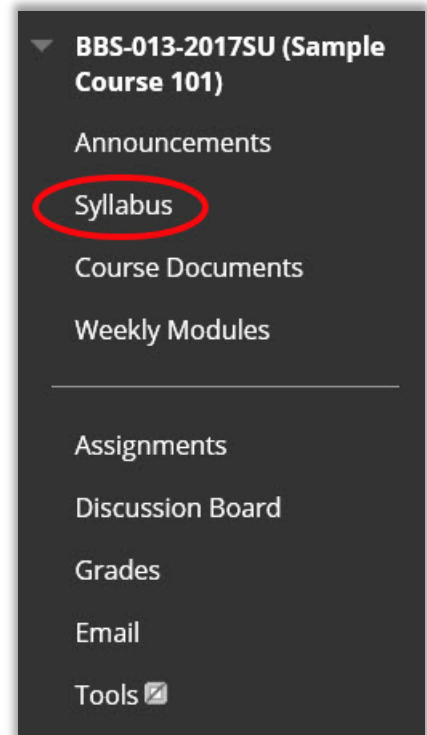

2. Enter your course

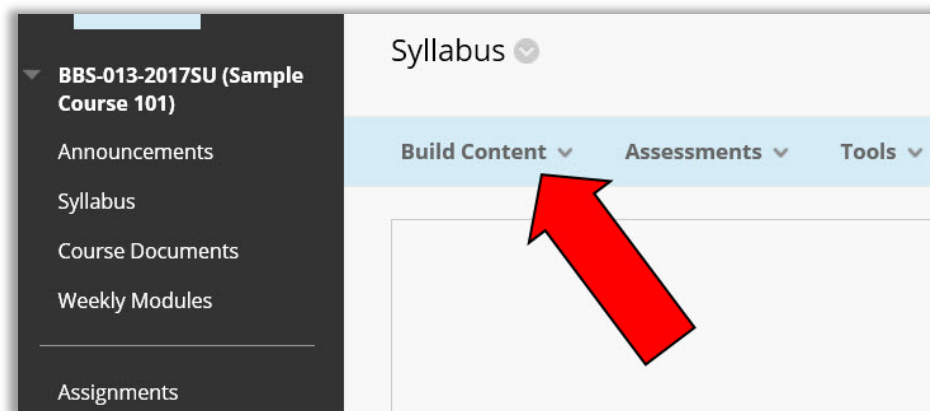

3. Make sure Edit Mode is in the ON position. Edit controls are in the upper right corner of the screen. If the Edit mode shows as Off, click **OFF** once to turn it on.

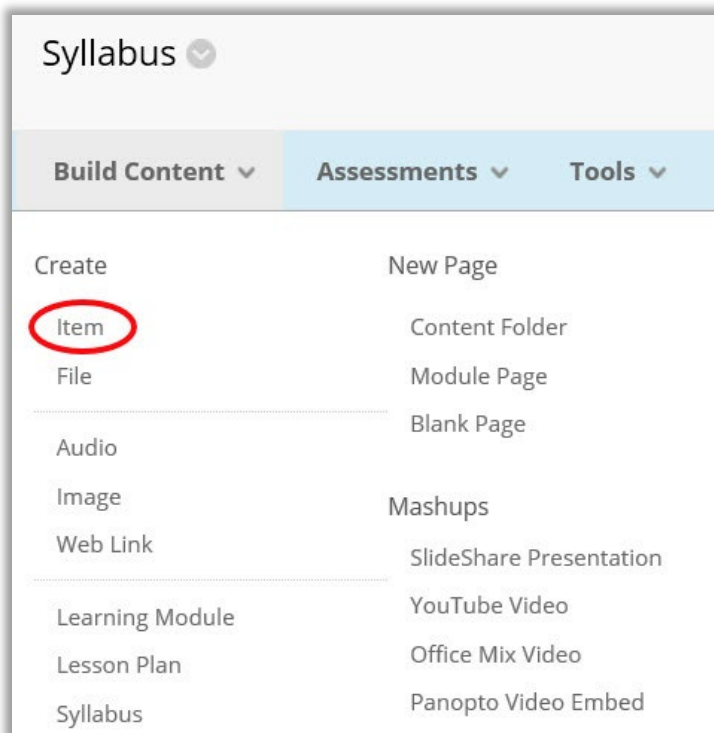

-
4. Click the course menu item where you want your document to be displayed. For example, Syllabus or Course Documents.

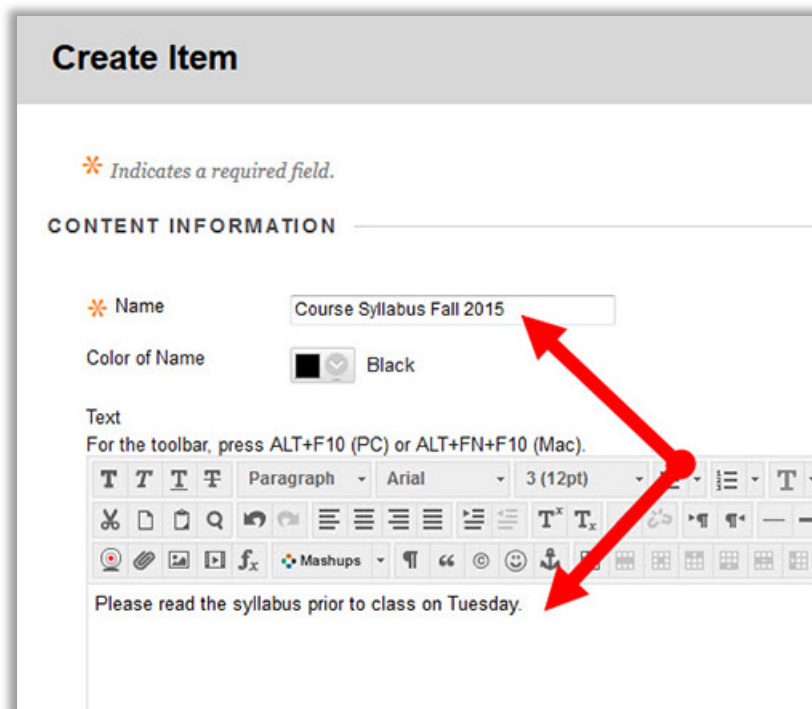

-
5. Move your mouse over **Build Content**

6. Click **Item**

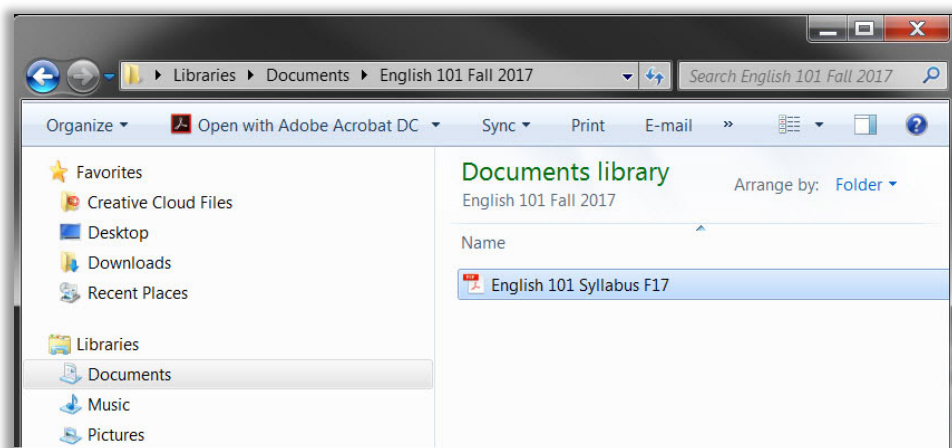

7. Enter a title for your document and any relevant descriptions or instructions.

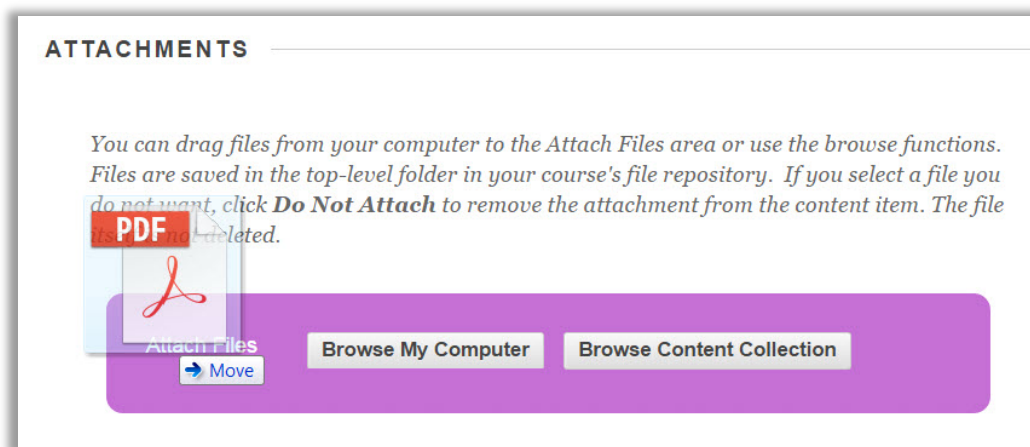

8. Under Attachments, you can now drag the file to the **Attach Files** section or click **Browse My Computer**

9. To drag the file, first open the File Explorer on your computer. (Windows - *Computer*, Mac - *Finder*). Locate the file and select it with your mouse. Click and hold the left mouse button on the file, and drag the file over to the Attach Files area until the background shows pink. When you see the pink background let go of the mouse button.

If you have trouble with this method, or prefer to browse for the file, see step 10.

10. Under Attachments, click **Browse My Computer**.

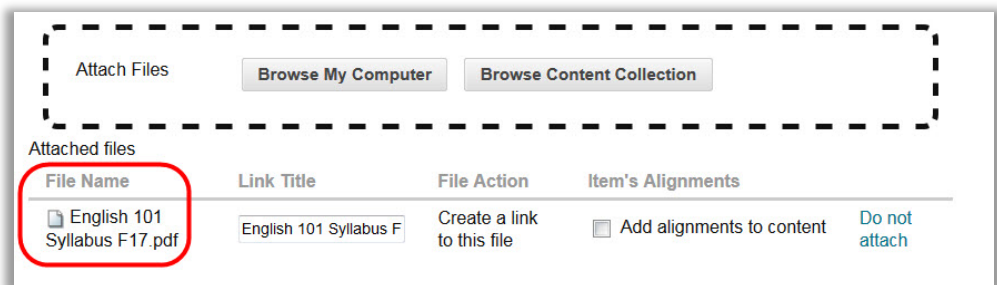

11. Locate your document on your computer, and click **Open**.

12. You will see that you have successfully attached the file as it will appear under Attached files.

You may repeat these steps and add multiple

documents here.

You can opt to not attach the document you just added by clicking **Do Not Attach**.

File Name	Link Title	File Action	Item's Alignments
 English 101 Syllabus F17.pdf	English 101 Syllabus F	Create a link to this file	<input type="checkbox"/> Add alignments to content Do not attach

13. Under Standard Options you can change when and if the students can see the document. If you want to set a date for the document to be available, you can check the box next to Display After and enter a date and time.
