Doorways for Women and Families envisions a day when all people in our community live free of violence and have safe and stable housing. Our goal is that every family that walks through our door walks through another – into a safe home of their own. Since 1978, we have given thousands of our neighbors a pathway out of violence and homelessness and empowered them to create brighter futures. We understand that the causes of family homelessness, domestic violence, and sexual assault are profound and varied. Many of our clients have experienced just one of these issues, while others have faced all three. Doorways works to break the cycles of poverty and violence through every interaction we have with our clients and by advocating for systemic policy change.
