Assignment Content

For this assignment you will create a video reflection using Kaltura. Your reflection should cover material from the first two modules. You must cite readings verbally in your video, similarly to how I do in the lecture videos. For an example, please see Module One, Lecture entitled ...And So it Begins. Your video should be between 2 and 7 minute and should discuss the things you feel you have learned, things that stood out to you, and things that you feel were a little to the unclear. This assignment has a rubric. Again, you must use Kaltura for this assignment. Please see instruction
